

I, Sushil Kumar Agarwal, chairman director of Avro furniture, left Quantum University today after finishing my wonderful session there, but today I got to learn such things from Quantum University which I would like to bring in my company. Actually, I am a motivational speaker and came here for the same purpose, but this time the students that Quantum University has got are very amazing, some students with whom I talked to 1st year students whose names I remember and to whom I have given medals like Aditi, Shobhit, Ram, Rahul, Riya, this is very amazing, I wish that they get good education which Quantum will provide and take them to heights.

Thankyou,
