PROJECTS

Face Attendance System

Built a basic face detection-based attendance system integrated it with a front-end interface using HTML, CSS, and JavaScript.

Time Complexity

Time complexity helps developers understand the performance of an algorithm and make smart choices when writing code. We can make sure our programs run faster and handle large input.

CO-CURRICULAR ACTIVITIES

- Participated in National Level Hackathon in S.R.M. University
- Member of Placement Cell in Quantum University.
